## DETAILED ACTION

### *Specification*

The disclosure is objected to because of the following informalities: Figures 10-24 are missing.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim <sup>9</sup>~~3~~ is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim <sup>9</sup>~~3~~, it is not clear to the Examiner because the limitation of 24 feet is large regarding what is well known in the art.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims <sup>7-9</sup>~~1-3~~ are rejected under 35 U.S.C. 102(b) as being anticipated by Kondou (US Patent No. 5,073,893).

Art Unit: 2815

Regarding claims <sup>1</sup>1 and <sup>1</sup>3, Kondou teaches an active layer having the principal plane of (111)-plane formed on a substrate (column 2, lines 33-35).

Regarding claim <sup>8</sup>2, Kondou teaches that the active layer has cutting angle of 54.7°.
